Wanted: Clean Air

Subject-Verb Agreement, Comma (Other), Apostrophe, Numbers, Sentence Fragment, Capitalization, Punctuation (Title), Colon, Using the Right Word

According to Kenneth Davis book Don't know much about Geography the population of the Mexico City area in 1992 were about 23000000 and some people who studies the city think its population will double by the year 2025. One of Mexico Citys worst problems are pollution. It is so severe that it causes major health problems. There has been interesting ideas suggested for controlling it. Here is some of the more bizarre suggestions add perfume to cars exhaust systems drill big wholes threw the mountains to allow pollution to escape have giant fans blow away fumes or have everyone wear a gas mask. But none of these "solutions" the answer. Wisdom and courage is necessary when dealing with such complex problems.

Sentence Combining

Combine the sentences that begin in lines 3 and 4 using a **key word**. (See page 91 in *Writers INC* for an example.) Write your combined sentence below.
