I would like to share some of the things that took place over the past month and a half and also what we are looking forward to as we head down the homestretch of this school year.

We had five of our sixth grade students attend the Southwest Iowa Math Bee in Logan. Our Treynor team received 5th place out of 32 teams! Those students who participated were: Grace Kinsella, Tyler Pollock, Cainan Davidson, Jacob Reelfs and Jack Stogdill. Individual awards were given to the top 25 individuals in which Cainan Davidson finished in 10th place and Tyler Pollock finished in 15th place. Congratulations for a very good performance.

Mrs. Stogdill had all 8th graders write a 4-5 minute speech about "How My Passions Affect the World". Six students, listed below, were selected to move on to the next level where each student presented their speech to several judges and were given a medallion from the Optimist Club. Mr. Funkhouser has started working with middle school students who wish to represent our school at the Western Iowa Quiz Bowl. Many categories will be used including: Math, Science, Literature, Spelling, Geography, History and Sports. The competition will be held on Friday, May 2 at Griswold and is set to begin at 12:45 p.m.

Our students and teachers are patiently waiting for warmer and drier weather so our Cardinal Connection Groups can have a clean-up day around Treynor. ☺ These groups are still in the process of outlining specific plans regarding this service learning project so if anyone has a need in the community, just give me a call at the school.

Thanks for all of your support, and as always, please don't hesitate to call or email if you have any questions or concerns.

TEACHER APPRECIATION WEEK

The first week in May, May 5-9th, has been designated as a special time to honor the men and women who lend their passion and skills to educating children. Teachers play a key role in student success and sometimes a simple "thanks" is all a teacher needs to feel valued. We are very proud of our teachers and appreciate their sacrifices and support for our children throughout the year. Please take the time to celebrate your students' teachers during this week.

SUMMER SOFTBALL & BASEBALL PASSES

Activity passes for summer softball and baseball are available. These passes will admit one person to fifteen home contests for softball and baseball. Tournament games are not included. The passes reflect a significant savings from paying admission at the gate. Adult passes are \$55 and student passes are \$33.

Passes can be purchased in the Superintendent's Office.

REGISTRATION DAY—AUGUST 4, 2014

Registration Day for the 2014-15 school year will be Monday, August 4 from 8:00 a.m.—1:00 p.m. and from 4:00 p.m.—7:00 p.m. in the High School Commons. However, please be advised that during this alternate time, there will only be one secretary available to receive payments and distribute forms. "Drop-in" registration in the school offices will not be available.

SUMMER TUTUORING

Summer tutoring sessions will be available for students K-6th grade from June 9—July 29. The instructor is Melanie Schuler who has been a tutor for the last three school years. It will be held at the elementary in the library. Each session covering one subject will be 30 minutes in length costing \$10 for each session. If you would like the student to be tutored in more than one subject, then please sign up for multiple sessions. Sessions will be held on Mondays, Tuesdays and Wednesdays from 9:00—11:00 a.m. Additional sessions can be scheduled if requested. Each parent needs to fill out a form, which are located in the elementary office, for their student and turn them back into the elementary office. Please get the forms done before the last few days of school. If you have any questions, contact Melanie at melschuler13@gmail.com or at 712-484-3946.

NEW NOTIFICATION SYSTEM COMING!

For the last two school years, we have used Blackboard Connect for the majority of our notifications. We have also used JMC, our student information database, for some email notices. We are excited to announce that we will be switching to JMC for all school notifications (voice, email, text). This will simplify the database for you and for us, since contact information in JMC is the most up-to-date. When the system is activated, there will be selection options for how you are notified within the JMC Parent Access portal. The plan is to activate that module the first week of May, and we will send you instructions when that happens. Be watching your email for this important announcement.

MAY—SCHOOL BOARD RECOGNITION MONTH

As citizen leaders, school board members face complex and demanding challenges. Yet few people fully understand the scope and far-reaching implications of board members' responsibilities. All Iowa citizens should recognize the vital contributions of these men and women and focus attention on the crucial role these elected public officials play in the education of our children. Their job is to establish a vision for the education program, design a structure to achieve that vision, ensure schools are accountable to the community and strongly advocate continuous improvement in student learning. That job entails an endless string of meetings and school functions to attend; reams of reports, agendas, proposals and other information to read and study; and a host of difficult decisions to make.

School board members come from all walks of life. They are farmers, secretaries, doctors, lawyers, homemakers, architects, truck drivers, professors, business owners and real estate agents, to name a few. Although they wear many hats in the workday world, school board members must pull together as a team toward a common goal—helping students achieve. Though they may individually disagree on certain issues, their role as a board is to consistently strive toward that goal.

Board members contribute thousands of hours each year leading their districts. Whether it be crafting policies, hiring top-notch administrators, listening to staff and student concerns or recognizing outstanding programs, board members always keep their eyes on the goal of student achievement. The time spent in board meetings represents just a small fraction of the hours school board members spend leading in their districts. They also work hard at seminars and training sessions to keep abreast of the latest trends in educational leadership, are deeply involved in community activities and spend many hours in the schools and at extracurricular events. Their love of learning, and concern and caring for students, staff and community, drives board members' desire to lead so students can achieve.

In recognition of the dedicated service of Iowa school board members, May has been designated School Board Recognition Month by the Iowa Association of School Boards. Please join us by saying "thanks" to our school board members and recognizing their efforts throughout the year.

Commonly Asked Questions

Parents often ask some of the same questions which I am glad to answer. This article tries to address a lot of commonly asked questions in regard to college planning.

1. When should my student take the ACT?

There is no magic time to take the ACT. My usual response is to take the ACT during the junior year but it can be taken earlier. A good rule of thumb is to take the ACT when a student is enrolled in Algebra II. There is a lot of geometry and algebra on the ACT and sometimes it is helpful to take the ACT while enrolled in Algebra II. For sure, a student who is applying to four year colleges should take the ACT at least during the junior year so they will have an ACT score to use to address to four year colleges in the fall of the senior year.

2. Should a student take the ACT more than once?

ACT reports that 55% of students that take the ACT a second time raise their score. Realize that it obviously benefits ACT monetarily for students to take the test multiple times. But the 55% figure is a reasonable expectation. Students should do some type of preparation prior to taking the test. The most beneficial preparation is just doing practice tests.

3. If a student takes the ACT a second time, does that hurt the student's chance of admission to a college?

No. Colleges will take the highest score.

4. What is the score that a student should get on the ACT to be admitted?

A 20 composite score is commonly seen as a major indicator of four year college success. It actually varies college to college. Some colleges have higher admission standards so the ACT score requirement will be higher. Other colleges may have lower admission standards. To be sure, check the college website and click on admissions for the freshman admission requirements. Or call the admissions office and speak to a college admissions representative.

5. How can I find more information about college and career choices for my son/daughter?

The State of Iowa has provided an excellent resource for all Iowa schools called I Have a Plan. It is a web based college and career information center that has a great deal of information about colleges and careers. The website is administrated through the Iowa College Student Aid Commission. Go to: www.ihaveaplaniowa.gov. Click on "Create and Account" to register and establish your individual account. The account sets up an individual portfolio which is an electronic file drawer that is your own personal access to I Have a Plan. I Have a Plan has an interest inventory, a skills assessment, a values sorter and many other resources that are available to help students and parents in the career/college search process. It also has free ACT and SAT test prep resources. There is also a link on the THS counseling website to I Have a Plan.

6. Should my student take the ACT Writing exam?

Most of the colleges in the Midwest do not require the writing exam. But check out the admissions requirement for possible future colleges on the college website and see what is required. Also, ACT has college admission requirement information on its website in terms of whether the writing exam is required. The writing exam is an additional \$15.50 charge.

7. Are all students required to take the ACT?

No. The ACT is usually required by four year colleges to be able to grant admission after graduating out of high school. Students who plan to go to a community college or a career and technical college can probably use the Compass test which is much shorter and less demanding. Compass tests can be set up through the IWCC Testing Center.

8. Can the high school transfer my student's college credit to another college?

No. College credit is granted by a college not a high school. If a student needs college credit transferred from a community college like IWCC, the process involved is to complete the IWCC Transcript Request Form. On the form it will have a section to complete to have the college transcript sent to a destination college. That form can be found on the THS website on the counseling page in the links section.

Summer 2014: What Juniors can do to Prepare for College Planning

1. Attend Iowa Private College Week August 4-8, 2014. (See article above.)
2. Put together a portfolio of information to be ready to fill out college scholarship applications. Accumulate information in regard to activities, honors and awards, volunteer and community service accomplishments. This makes it easier to complete scholarship applications and college admission applications.
3. Volunteer in service opportunities and then list them on applications for scholarships.
4. Spend time surfing college web sites to learn about prospective colleges and narrow your list to 3-5 colleges.

Class of 2015: Plan College Visits for Fall, 2014

The fall is a busy time with the start of school, fall athletics, fall music and speech activities. Now is a good time to begin to think about scheduling college visits to prospective colleges. It is best to go in the fall before snow blankets the campus. It is important for parents to arrange time off from work to go on the visit. Check college web sites or call college admission offices for individual and group visit days. The campus visit is the single most important factor in deciding which college to attend. Planning ahead and coordinating school and work schedules can be tricky, but looking ahead can give you a day that will work well for students and parents.

END OF THE SCHOOL YEAR FEES

Just a reminder with the end of the school year approaching—all lunch accounts must have a positive balance on the last day of school. Students who have a negative lunch balance will not be able to sign out for the year. Fees will also be due for Industrial Tech. classes and projects (check the bulletin boards in the commons for the list) and laptop repairs.

It is possible once textbooks are turned in at the end of the year that your student may be asked to pay a book fine or a book rebinding fee due to damage to a textbook.

If you have any questions or need to check on your student's fees, please call any of the school offices: Middle School, 712-487-3181; High School, 712-487-3804; Superintendent's Office, 712-487-3414.

This will be the last newsletter for the 2013-14 school year. The first newsletter for the 2014-15 school year will be available online or mailed before the end of July. It will contain information for registration and for the 2014-2015 school year.

Have a great summer!
