

EXTRA-CURRICULAR PARTICIPATION

It shall be the policy of the Treynor Community Schools to allow our students to participate in extracurricular activities available in another district that are not available at Treynor Community Schools. Cooperative Sponsorship of an Interscholastic Activity is pending upon the following criteria:

- A cooperating school willing to sponsor the interscholastic activity is available within a reasonable distance from Treynor.
- The cost to the Treynor Community Schools per participating student in the cooperative sponsorship is less than \$500.
- The student's family shall provide transportation at their expense to and from the cooperating school.
- The student is not eligible to participate in dual sports (i.e., two sports in one season) if either of the two sports are part of a cooperative sponsorship.
- The student must arrange his/her class schedule to avoid missing core classes if the cooperative school has a different schedule which will impact the academic schedule of the Treynor students.
- The student will remain under the guidelines of the Treynor Community Schools' good conduct and academic eligibility policies.
