Issue No. 14 | Summer 2023

Elementary News

The district has worked hard over the course of the 22-23 school year to take the necessary steps in implementing a preschool program based in the school. This process was not easy, and took time to put together, but the hard work paid off with the implementation of one preschool room next year. If you have been in the area, you may have seen the transformation in the back of the school as the preschool specific playground popped up. We are excited to welcome this new addition to the 2023-2024 school year, along with all of our returning students, families and staff!

Make sure you watch for more details to come out on *Meet the Teacher Night*.

Also, make sure you check the school website for the school supplies list to get the supplies your child(ren) will need for next school year.
